

previous:Partition

partition:Partition

card:Card

```
graph TD; previous[previous:Partition] --- green[ ]; partition[partition:Partition] --- red[ ]; green --- card[card:Card]; red --- card;
```

The diagram illustrates the relationships between three objects: 'previous:Partition', 'partition:Partition', and 'card:Card'. 'previous:Partition' and 'partition:Partition' are positioned at the top, while 'card:Card' is at the bottom. A green line connects 'previous:Partition' to 'card:Card', and a red line connects 'partition:Partition' to 'card:Card'. The 'card:Card' box has a thicker border than the others.
